

REPORT FROM VALE AREA

Following requests for information following the publishing/distribution of the new handbook it has become more evident that there were Coordinators in the area that had not received contact for some time. Distribution and making contact has taken time because of the rural area involved.

Now trying to establish the "live" Coordinators and arrange some form of contact to provide ongoing contact.

Recent Coordinators meeting in Grove was slightly down on attendance, probably due to bad weather at the time, but well supported by local Police Officer and PCSO. Updated on revised TVP operating system this was followed about one week later with the good news that our existing officers would still be place.

Attended first NAG meeting of the New Year with positive items to pursue through the year.

Attended inaugural meeting on 15 February to establish a NHW body in Oxfordshire, South and Vale area , to gauge support . Good attendance by Coordinators from across the area with genuine debate relating to agreement for further meeting. Well supported by TVP by Insp. Mark Harling and Julia Williams.
